

AUXILIARY ASSOCIATION MEMBERSHIP PROGRAM

The goal of offering Auxiliary Association Memberships is to provide access to meetings and quality training for officials that are unable to meet attendance requirements due to the lack of associations in their areas. Each association participating in this program provides the option for virtual attendance in meetings, online trainings and other regular electronic communications with other officials in the sport, and it will suffice as to provide credit for Member in Good Standing of a Local Approved Association with a waiver.

Below is a list of Local Approved Associations offering this opportunity, organized alphabetically and with all of the sports and benefits membership in the association will provide. Please reach out to these groups to join and remain connected for your sport. Consideration is being made to make this mandatory for those outside of the area of a traditional Local Approved Association for postseason consideration.

All American Athletic Association
